CORPORATE INFORMATION

The consolidated financial statements of Valor Resources Limited ('the Group') for the half-year ended 31 December 2016 was authorised for issue in accordance with a resolution of the directors on 15 March 2017.

Valor Resources Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange. The nature of the operations and principal activities of the Group are described in the Directors' report.

At a general meeting held on 25 January 2017, shareholders approved the change of name of the Company from The Carajas Copper Company Limited to Valor Resources Limited.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**(a) Basis of Preparation**

These interim general purpose financial statements for the half-year reporting period ended 31 December 2016 have been prepared in accordance with Australian Accounting Standard 134 Interim Financial Reporting and the Corporations Act 2001.

These half-year financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial statements. Accordingly, these half-year financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2015 and any public announcements made by Valor Resources Limited during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The half-year report has been prepared on an accruals basis and is based on historical costs.

Accounting policies and methods of computation

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding half-year reporting period. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

New accounting standards and interpretations not yet adopted

In the half-year ended 31 December 2016, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group's operations and effective for the current reporting period.

The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2016. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Group's business and, therefore, no change necessary to the Group accounting policies.

New and amended accounting standards and interpretations have been published but are not mandatory. The Group has decided against early adoptions of these standards, and has determined the potential impact on the financial statements from the adoption of these standards and interpretations is not material to the Group.

(b) Significant accounting judgments and key estimates

The preparation of the half-year financial reports requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

Impairment of Assets

During the half-year, the Directors conducted an impairment assessment of all deferred exploration and evaluation expenditure. As a result of this assessment it was concluded that no impairment was necessary in regards to deferred exploration and evaluation expenditure.

Capitalised exploration and evaluation expenditure

The future recoverability of capitalised exploration and evaluation expenditure is dependent on a number of factors, including whether the Group decides to exploit the related lease itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale.

Factors which could impact the future recoverability include the level of proved, probable and inferred mineral resources, future technological changes which could impact the cost of mining, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

To the extent that capitalised exploration and evaluation expenditure is determined not to be recoverable in the future, this will reduce profits and net assets in the period in which this determination is made. In addition, exploration and evaluation expenditure is capitalised if activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. To the extent that it is determined in the future that this capitalised expenditure should be written off, this will reduce profits and net assets in the period in which this determination is made.

Share based payment transactions

The Group measures the cost of equity settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. For options the fair value is determined by using the Black Scholes formula taking into account the terms, conditions and probability upon which the instruments were granted. For shares the fair value is determined by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue. For performance shares the fair value of is determined by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue as well as Management's assessment of the likelihood of the relevant conversion milestones being met.

On 15 December 2016, the Company acquired 100% of Kiwanda Peru by way of a share purchase agreement. Kiwanda Peru shareholders received 133,333,334 shares in the Company and 133,333,334 options with an exercise price of \$0.004 expiring on 15 December 2018. Kiwanda Peru holds the rights to the Picha Copper Project in Peru.

As the acquisition of Kiwanda Peru is not deemed a business acquisition, the transaction must be account for as a share based payment for the net assets acquired.

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned a carrying amount based on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities as the initial recognition exemption for deferred tax under AASB 112 applies. No goodwill will arise on the acquisition and transaction costs of the acquisition will be included in the capitalised cost of the asset.

The Group measures the cost of equity settled transactions with vendors by reference to the fair value of the equity instruments at the date at which they are granted. For shares the fair value is determined by reference to the 15 day VWAP of the shares on the Australian Securities Exchange at the time of issue.

2. SEGMENT REPORTING

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions. The entity does not have any operating segments with discrete financial information.

The Board of Directors review internal management reports on a monthly basis that is consistent with the information provided in the Statement of Profit or Loss and Other Comprehensive Income, Statement of Financial Position and Statement of Cash Flows. As a result no reconciliation is required because the information as presented is what is used by the Board to make strategic decisions.

8. SHARE BASED PAYMENTS

(a) Recognised share based payment transactions

Share based payment transactions recognised as exploration expenditure on the statement of financial position during the half-year were as follows:

	31 December 2016	30 June 2016
	\$	\$
<i>Exploration expenditure</i>		
Share based payments to vendors, capitalised against exploration asset (refer to notes 4 and 7)	923,856	-

On 15 December 2016, the Company acquired 100% of the voting shares of Kiwanda Peru SAC.

The consideration payable was 133,333,334 fully paid ordinary shares in the Company valued at \$400,000 based on the most recent price per share of capital raising completed by the Company and 133,333,334 options with an exercise price of \$0.004 expiring 15 December 2018.

The fair value at grant date of options granted was determined using the Black Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share and the risk free interest rate for the term of the option. The table below summaries options granted:

Grant Date	Expiry date	Exercise price	Granted during the year Number	Exercised during the period Number	Forfeited during the period Number	Balance at end of the period Number	Exercisable at end of the period Number
15/12/2016	15/12/2018	\$0.004	133,333,334	-	-	133,333,334	133,333,334
Weighted remaining contractual life (years)			2.0	-	-	1.9	1.9
Weighted average exercise price			\$0.004	-	-	\$0.004	\$0.004

The model inputs, not included in the table above, for options granted during the half-year ended 31 December 2016 included:

- (a) options are granted for no consideration;
- (b) share price at grant date was \$0.006;
- (c) expected volatility of 110%;
- (d) expected dividend yield of nil; and
- (e) a risk free interest rate of 1.50%.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Valor Resources Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Valor Resources Limited, which comprises the consolidated statement of financial position as at 31 December 2016, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Valor Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Valor Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Valor Resources Limited is not in accordance with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and of its performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
